2024-11-12

Excellency,

I have the honour to inform you that the International Atomic Energy Agency (IAEA) will hold the **Regional Training Course on Computer Security Fundamentals for Nuclear Security** (hereinafter referred to as "event") in Paris, France, from **16 to 20 December 2024**.

The purpose of the event is to familiarize the participants with IAEA computer security guidance and essential elements of a State's nuclear security regime as they apply to nuclear and radioactive material, and material out of regulatory control.

The event will be held in English.

The Secretariat understands that Mr Jianghai Li (Institute of Nuclear and New Energy Technology, Tsinghua University, Nengkelou Building, BEIJING, 100084, China; Email: lijianghai@tsinghua.edu.cn) could make a valuable contribution to the event as an expert and would thus appreciate your Government's consideration to accept his designation by the IAEA.

We understand that all expenses incurred in connection with the expert's services will be paid by the expert's authorities.

It should be noted that compensation is not payable by the IAEA for any damage to or loss of personal property. The IAEA also does not provide health insurance coverage for participants in IAEA events. Arrangements for private insurance coverage on an individual basis should therefore be made. The IAEA will, however, provide insurance coverage for accidents and illnesses that clearly result from any work performed for the IAEA.

I would appreciate receiving your Government's response not later than **6 December 2024**.

Accept, Excellency, the assurances of my highest consideration.

Elena Buglova

Director

Division of Nuclear Security

Department of Nuclear Safety and Security
